

## **Kitakata Citizens' Charter**

Kitakata City is located between the Iide Mountains and the Mt. Oguni in the north of Aizu and is blessed with unspoiled Nature, abundant water, and a moderate climate.

Thanks to this blessing, our city, known as "Kura no Machi" (Town of traditional Japanese storehouses), has cultivated and developed a history and tradition of coexistence of people, nature and culture.

For the further development of the city, we will inherit the wisdom and spirit of the ancestors who have nurtured this area. We establish a citizen's charter here with the aim of creating an attractive future for Kitakata City, where citizens can unite their hearts and dreams grow.

1. We shall work hard and make a happy home full of health.
2. We shall respectfully support each other and create a city full of compassion.
3. We shall be proud of our city, raise our cultural level, and create a city of refined culture.
4. We shall love Nature, strive to keep our city and rivers clean, and protect the beautiful landscape.
5. We shall follow the rules, work together, and create a comfortable city to live in.
6. We shall expand the wave of exchange, develop human resources, and live our life with pride and confidence.
